

Cup & Tray Sealing Knives

Replacement machine knives for automatic cup & tray sealing equipment

TGW International manufactures standard size and shape replacement knives per OEM specifications AND custom manufactures knives to meet customer specific requirements for the following applications:

CUP SEALING

Replacement knives used for the cutting of smaller portion control cups during the sealing operation, for end products including cereal, dairy products, dips and soups. Common OEM's include AutoProd, Modern, Oric, Osgood and Zitropack.

TRAY SEALING

Replacement knives for Modified Atmosphere Packaging (MAP) or gas flushed machines to package fresh meat, poultry, seafood, produce and ready-to-eat meals. Common OEM's include Mondini, Multivac, PackLine, Reiser and Ross Industries.

TUB SEALING

Replacement knives for Modified Atmosphere Packaging (MAP) or gas flushed machines to package fresh meat, poultry, seafood, produce and ready-to-eat meals. Common OEM's include Mondini, Multivac, PackLine, Reiser and Ross Industries.

POD SEALING

Replacement knives used for cutting the filter material during the sealing operation for single-serve coffee POD containers. Common OEM's include IMA, OPEM, Optima and Packaging Technologies.

TGW International delivers nothing less than the highest quality knives, with superior technical expertise and the best service for the cup and tray sealing industry!
