

# VACUUM PACKAGING KNIVES

We manufacture the highest quality knives for vacuum, thermoformed, and blister packaging operations.

## TGW, ELEVATING THE CUTTING EDGE. WE ARE YOUR TRUSTED PARTNER FOR SUPERIOR QUALITY KNIVES

TGW is your partner in crafting high-performance vacuum packaging knives designed to tackle the toughest challenges. Our knives are engineered to cut through the thickest films and thermoformed materials with ease, ensuring a clean, precise cut every time. With a wide range of standard OEM and custom designs, including serrated, perforated, and specialized blades, TGW delivers solutions tailored to your unique needs. Our commitment to quality means that every knife is manufactured from premium steel, ensuring durability and longevity.

- Tailored tooth profiles and blade materials ensure clean cuts through thick vacuum packaging films.
- Made from premium steel with optional wear coatings to extend knife life.
- Extensive range of knife designs to meet diverse packaging needs across various industries.
- Standard OEM and custom options available for specific applications.
- Specialized solutions for bakery, cheese, meats, pharmaceuticals, and more.

The unique challenges posed by vacuum packaging films, often three to four times thicker than traditional wraps, necessitate cutting solutions that combine advanced materials and superior engineering. Our knives are meticulously crafted to ensure optimal hardness and quality, providing exceptional performance in even the most demanding environments.

Our comprehensive product range includes standard OEM designs such as serrated knives, perforated blades, EZ open knives, cross cutoff knives, circular slitters, and shaped cutters. For those requiring more specialized solutions, TGW offers custom knife designs tailored to meet specific operational needs. Each knife is made from premium steel, ensuring robust performance and longevity, with additional material and coating upgrades available for enhanced durability.
