

Machine Knives...

Bag Making & Film Converting

At TGW, we manufacture precision ground industrial machine knives for manufacturing bags and converting film, with a focus on slitting blades, core cutters and dish knives with coatings formulated to extend wear and provide consistent and precise cuts. We bring extensive experience with Alpha Marathon, Amplas, CMD, Gloucester and Lemo machinery and equipment, allowing us to better meet the needs of our diverse clientele.

Our product line consists of a range of products, including serrated tooth knives equipped with consistent tooth forms to provide maximum yield and a consistent quality cut for all grades and thickness of films. We also stock pneumatic air holders, complete with enhanced components to provide our film, tape and textile customers with the most durable air holders available.

At TGW, We leverage our 100 years of industry experience to bring a unique understanding of machine knife composition, providing superior-quality material grades, hardness and finishes, and precise dimensional tolerances to provide our customers maximum yields.

We deliver nothing less than the highest quality knives, with superior technical expertise and the best service in the industrial machine knife industry. Please call us at **1.800.407.0173** for all of your machine knife needs.
