

Machine Knives...

Food Processing & Related Industries

At TGW, we manufacture precision ground machine knives for a variety of food processing applications including:

- Guillotines
- Macerators
- Roll milled scrapped surface blades
- Shredders
- Slitters
- Tenderizers

Over the years, we have earned the trust of food processing customers around the world and across industries including bakery, dairy, cereal, cheese, confectionary, meat & seafood, snack, fruit, salad, tobacco and vegetable. We adhere to strict quality control procedures to ensure that FDA and OEM standards for corrosion resistance are consistently met, meaning a higher quality product for our clients. We offer straight and circular knife configurations with serrated or scalloped teeth and beveled edges.

At TGW, we leverage our 100 years of industry experience to bring a unique understanding of machine knife composition, providing superior-quality material grades, hardness and finishes, and precise dimensional tolerances to provide our customers maximum yields.

We deliver nothing less than the highest quality knives, with superior technical expertise and the best service in the industrial machine knife industry. Please call us at **1.800.407.0173** for all of your machine knife needs.
