

Machine Knives... **Knife Holders**

At TGW, we manufacture superior quality knife holders for top-dished knives, top and bottom slitters, and pneumatic air holders for various applications and all grades and thickness of films, papers, corrugated and recycled paper and thin metals. Our holders eccentric locking, multi-lock and set screw holders are manufactured from hardened tool steel for wear resistance.

Our pneumatic air holder is the workhorse of the industry, available ready to mount with coated hardened side plates and score knife bore size options available from stock. Factory pre-tested and ready to mount hose options, razor blade attachments for razor slitting, and a heavy-duty version are also available from stock.

At TGW, we leverage our 100 years of industry experience to bring a unique understanding of machine knife composition, providing superior-quality material grades, hardness and finishes, and precise dimensional tolerances to provide our customers maximum yields.

We deliver nothing less than the highest quality knives, with superior technical expertise and the best service in the industrial machine knife industry. Please call us at **1.800.407.0173** for all of your machine knife needs.
