

Machine Knives...

Tag & Label Converting & Printing Equipment

At TGW, we design and manufacture precision ground circular and straight knives for the tag and label industry, adhering to strict standards to produce superior products that deliver clean cuts, consistently meeting or exceeding OEM standards.

Combined with selected harden tool steels, our products can deliver maximum cuts, with coatings available to extend product life.

TGW offers product an extensive stock of product types suitable for:

- Labels
- Tickets
- Product inserts
- Cards
- Narrow web flexographic presses (slitters, splicers, core cutters, score knives, perforators, splicing, sheeting and cutoffs)

Our advanced turning and grinding techniques produce beveled and serrated edges to exact flatness and bevel dimensions for superior cutting and extended life, with strictly controlled hardness standards and material selection for optimum performance.

At TGW, we leverage our 100 years of industry experience to bring a unique understanding of machine knife composition, providing superior-quality material grades, hardness and finishes, and precise dimensional tolerances to provide our customers maximum yields.

We deliver nothing less than the highest quality knives, with superior technical expertise and the best service in the industrial machine knife industry. Please call us at **1.800.407.0173** for all of your machine knife needs.
